

The diagram consists of three horizontal rows of rectangles. The top row has a bracket on the far left covering the first four rectangles. A short horizontal line is positioned between the end of the bracketed group and the start of the next sequence. This second sequence contains twelve rectangles. The bottom row contains six rectangles.

A horizontal bar composed of 20 small, empty square boxes arranged side-by-side. The last four boxes from the left are filled with a bright yellow color, while the remaining 16 boxes are white.

A decorative horizontal bar consisting of a series of small, evenly spaced rectangular blocks.

A horizontal sequence of 20 rectangular boxes arranged in two rows of 10. The 10th box from the left in the top row is filled with yellow, while all other boxes are empty (white). This visual representation likely corresponds to the index 10 mentioned in the accompanying text.

A horizontal sequence of 24 rectangular boxes. The last four boxes are highlighted with a yellow background, and the second box from the right is also highlighted with a yellow background.

火災発生時に消防車が駆けつけた際、消防士が消防栓を開いて消火活動を行なうまでの間に、火災を鎮めることを目的とした活動です。

消防署の消防士による実演や、消防車の展示なども行われます。
